

Attention Business and Technology Editors:

Noetix and DesTech Consulting and Education sign agreement to provide Integrated Solutions for Enterprise Application users.

Toronto, November 15th, 2007/PR/Noetix Software is pleased to announce the signing of an exclusive Canadian agreement with DesTech Consulting & Education to provide turnkey solutions & infrastructure offerings to its joint client base. These new offerings will be developed in conjunction with Noetix Information Technology infrastructure group and the DesTech team, one of the most highly sought-after independent Oracle experienced companies in Canada.

This agreement expands the expertise and marketplace of the Noetix solution portfolio and brings substantial Oracle expertise to the team. For clients, this represents a turnkey end-to-end solution on the delivery of enterprise offerings around Business Intelligence and data simplification for Enterprise Application users.

James Toomey Director of DesTech's Technology Sales practice announced today "By integrating the best of breed infrastructure solutions from Noetix with the suite of DesTech Oracle consulting, licensing and education portfolio, we are now in a position to address any and all of our client's requirements. At DesTech we view this as an opportunity to not only satisfy net new Customer demands in the ever growing enterprise applications marketplace, but also to simplify their requests for ease of use around Enterprise reporting and data management. With a combination of an existing application layer and Noetix unique offerings DesTech now has the ability to complete our offerings and strategies."

According to John Clark, Director of Sales at Noetix, "We see this fit with DesTech as a natural progression in increasing our capabilities and expanding our growing footprint within the greater Toronto and South Western Ontario and the Canadian marketplace. Our experience shows us that most clients are looking for a single point of contact to consolidate their software investments and requirements and along with the industry leading capabilities and track record of DesTech we are now in a position to deliver."

About Noetix

Behind every successful company are talented people. From our engineers who design and develop cutting edge technology, to the teams that deliver and support our world-class solutions—our people are our greatest asset.

Through the hard work and dedication of our employees and their unrelenting desire to meet or exceed our customer needs, Noetix has solidified our reputation as the Oracle Applications Reporting Experts.

With roots as an innovative Oracle consultancy, Noetix continues a decade-long commitment to assisting customers simplify access to operational data from their enterprise applications.

In 1996, Aris Software acquired Noetix and the NoetixViews technology. In September 2000, Aris Software was spun off as a separate company, creating Noetix Corporation and extending the functionality of NoetixViews to the Noetix Enterprise Technology Suite, an integrated family of products for operational reporting.

Today, with more than 1,300 customers worldwide, Noetix continues to experience dramatic growth and strong financial success. An expanding customer base provides continued investment in products beyond Oracle E-Business Suite, extending reporting functionality to include the Siebel and PeopleSoft families of enterprise applications.

About DesTech
